DREER'S RELIABLE SEEDS

FOR MARKET GARDENERS

For the past eighty-four years the house of "Dreer" has been noted for the high quality of their Vegetable Seeds, and during that time has furnished many leading truckers throughout the Country with their supplies, thus gaining a national reputation for reliability and good quality. We will not under any circumstances send out seeds of doubtful character and for the protection of our customers, invariably make a thorough and critical test of all seeds received from our growers and they must be of the highest degree of germination. During the summer, we also conduct extensive purity tests at our Trial Grounds and thus know the quality of our seeds, both as to their germination and purity. We are now in a position to give prompt attention to all orders and will greatly appreciate your patronage.

Information to Customers Ordering from this Catalogue

Cash with order. Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way. Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D.

Seeds by Parcel Post. We deliver postpaid to any Post Office in the United States, all orders for ounces, quarter-pounds and single pounds of Vegetable Seeds unless otherwise specified. If Beans, Sweet Corn, or Peas are wanted sent by Parcel Post, add extra at the rates given on page on which these seeds are offered. Bulky items, such as Field and Grass Seeds, Onion Sets, Potatoes, Vegetable Plants and Roots, Fertilizers, Insecticides, Garden Implements and Requisites of all kinds are sent by express, or freight at purchaser's expense.

Non-warranty. Henry A. Dreer, Inc., gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs or Plants they sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Special low express rates. As seeds are now taken when packed in boxes or bags, by Express Companies at the second-class rate, it is a great advantage to those ordering in quantities which are not offered postpaid to have their orders shipped by express. Large quantities can be shipped cheapest by freight, but require a longer time in transit. If the manner of shipment is left to us, we will always use our best judgment in the matter and decide to the interest of the customer.

Packing. We give special care to packing all orders for Vegetable Seeds and make no charge for boxes nor for delivery to freight depots or express offices in Philadelphia.

Plant Department. Our nurseries contain nearly three hundred acres, more than ten acres of which are covered by modern green-houses. We grow and supply large quantities of Palms, Ferns, Roses, Dahlias, Cannas, Hardy Perennial Plants, etc. These are fully described in our **Garden Book for 1923**, a copy of which will be mailed free if you are interested.

BUSH LIMA BEANS

FORDHOOK BUSH LIMA. (See cut.) This valuable variety is now the leader in the Bush Lima class and is more largely grown than any other sort. It is a perfected form of Dreer's Bush Lima, which variety it resembles in form of pod and shape of bean, but both are larger and the plant is of strong, upright growth, protecting the pods from contact with the soil, thus preventing rust or rot. It produces the pods in clusters and the Beans are very large, thick through and of a delicious flavor. It is now largely grown by market gardeners, not only on account of its productiveness, but also because their customers call for it. 2 lbs., **80 cts.**; 10 lbs., **\$3.50**; 50 lbs., **\$12.50**.

DREER'S BUSH LIMA. A dwarf variety of Dreer's Improved Lima. The Beans grow close together in the pods, producing three and four beans each, sometimes five, and are thick, sweet and succulent, fully equal in quality to Dreer's Improved Pole Lima. An excellent variety, which is particularly valuable for the home garden on account of its productiveness. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

DREER'S WONDER BUSH LIMA. This variety of Bush Lima Bean was originally introduced by us, and is very desirable on account of earliness, productiveness and its fixed habit of growing in the dwarf or bush form. It is the best variety for sections where the growing season is short and can be depended upon for producing a good crop. The plants are of strong, upright growth, and are completely covered with large pods, many of which contain four beans, which are fully as large as the pole limas. The beans are flat in shape and of excellent quality. A customer writes that we can well call it "Wonder," as he planted as late as May 30, and not only had all the Lima Beans he wanted, but also supplied his neighbors with what they required. 2 lbs. **50 cts.**; 10 lbs., **2.25**; 50 lbs., **\$10.00**.

BURPEE'S BUSH LIMA. A true bush form of the Large White Lima, very productive and of excellent quality. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

BURPEE-IMPROVED BUSH LIMA. Produces pods in large numbers and beans which are very large in size and of excellent quality. Plant grows more erect than Burpee's Bush Lima. 2 lbs., **60 cts.**; 10 lbs., **\$2.60**; 50 lbs., **\$12.00**.

HENDERSON'S BUSH LIMA. A dwarf variety of the Sieva or Southern Lima. The plants are hardy, make a rapid growth and are not so apt to throw runners like some of the other Bush Limas. Beans are tender and of delicious flavor. 2 lbs., **45 cts.**; 10 lbs., **\$2.00**; 50 lbs., **\$9.00**.

POLE LIMA BEANS

DREER'S IMPROVED LIMA. A very superior early variety of excellent quality and great productiveness. The quality is exceedingly fine and beans cook rich and mealy. This is without doubt the best and will shell out more quarts of beans to the bushel of pods than any other lima bean. Also called Challenger, or Potato Lima. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

EARLY LEVIATHAN LIMA. Earliest variety of pole lima; produces pods in clusters and bears for a long season. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

KING OF THE GARDEN LIMA. Beans large and of rich flavor, a favorite variety with market gardeners. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

CARPINTERIA. Vines vigorous and productive, pods large, usually contain four beans. The beans cook nicely and being thin skinned are very tender. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

EARLY JERSEY LIMA. A few days earlier than King of the Garden and is very productive. Pods contain three or four large beans and the quality is good. 2 lbs., **50 cts.**; 10 lbs., **\$2.25**; 50 lbs., **\$10.00**.

It will stand considerable heat and therefore it is a quick forcer, and the quality is fine, being crisp and tender. NEW PERFECTION.
